

RONIT TAMBE

Full Stack Developer | Java | Spring Boot | React.js

☎ 9834080560 ✉ ronittambe116@gmail.com 📧 ronit1161 📧 ronit-tambe-781a09204 📍 Pune, Maharashtra, India

SKILLS

Programming Languages :	Java, JavaScript, SQL, C#
Backend :	Spring Boot, Spring Security, Spring Data JPA, Hibernate, ASP.NET Core, REST APIs, Microservices
Frontend :	React.js, Next.js, Tailwind CSS, Bootstrap, Vite
Databases :	MySQL, MongoDB
Tools & DevOps :	Docker, Docker Compose, Git, GitHub, Maven, Postman, Vercel, AWS EC2

PROJECTS

Freelance Marketplace | Github

- Developed a full-stack freelance marketplace connecting clients and freelancers with **role-based authentication and authorization** for Client, Freelancer, and Admin roles using Spring Security and JWT.
- Implemented **gig management, category management, order processing, reviews, and admin operations** using Spring Boot, Spring Data JPA, Hibernate, and MySQL.
- Designed and implemented a **wallet-based escrow system** with wallet transactions to manage payments throughout the order lifecycle.
- Built a responsive React.js frontend using **Vite, Tailwind CSS, Axios, and React Router**, integrating it with secure REST APIs.
- Migrated the application from a modular monolith to a **Spring Boot microservices architecture**, containerized services using Docker Compose, and deployed it on **AWS EC2**.

Technologies / Tools Used : Java, Spring Boot, Spring Security, Microservices, React.js, MySQL, Docker, Generative AI

Food Ordering App | Github

- Developed a full-stack food ordering application using **Next.js**, providing separate functionality for customers and administrators to manage food items, carts, and orders.
- Implemented **user authentication, cart management, order processing, and admin food management** with persistent data storage using MongoDB.
- Integrated **Razorpay** for online payment processing and **Cloudinary** for image storage and management.
- Built a responsive user interface using **Tailwind CSS** and optimized page rendering using Next.js server-side rendering (SSR).

Technologies / Tools Used : Next.js, Tailwind CSS, MongoDB, Cloudinary

EDUCATION

Center for Development of Advanced Computing(CDAC) | Sunbeam, Pune

Feb 2026 - Aug 2026

Post Graduate Certificate Programme in Advanced Computing.

Percentage - 82.77 %

Finolex Academy of Management of Technology | Ratnagiri

2019 - 2023

B.E (Electronics & Telecommunication Engineering)

CGPA - 7.13

WORK EXPERIENCE

Data Annotator | Full-time

Feb 2024 - Oct 2025

Valuepitch

Remote • India

- Labeled and validated **50,000+ data points** for AI/ML model training, maintaining accuracy and consistency across datasets.
- Performed **audio annotation and speech classification**, identifying speech segments and sound events for speech recognition models.

Technologies / Skills Used : Data annotation, Labelling, Quality Control
